

OPTICAL BIOMETRY CAN BE THAT GOOD!

IOL Calculation in 40 sec.

OPTICAL BIOMETER OA-2000

OPTICAL BIOMETER & TOPOGRAPHY-KERATOMETER

- IOL Ray Tracing Calculation
- All measurements – simply one touch
- Topography-Keratometer
- Pupil diameter
- Axial length
- Pachymetry
- ACD & LENS thickness
- White to White

UNABLE TO MEASURE MATURE CATARACT? NOT ANYMORE!

With our new TOMEY optical biometry system OA-2000 you can measure up to 99% of all different cases of cataract – especially mature cataract. Due to the newest OCT technology and an extremely high signal to noise ratio these measurements can be done now.

With the unique automatic alignment and shot of the OA-2000 biometry gets as easy as 1-2-3 and reliable.

All measurements in just one shot!
IOL calculation in only 40 seconds.
